

The second question of Fatwa no. 18458

Q 2: There are many types of hair creams. Do creams and other hair products made of a viscous substance prevent water

(Part No. 4; Page No. 70)

from reaching the hair, and what then is the ruling on Wudu' (ablution)? Please advise, may Allah reward you!

A: The types of cream that have a density which prevents water from reaching the skin should be removed prior to Wudu'. On the other hand, those types which have no density do not have any effect on the validity of Wudu'.

May Allah grant us success! May peace and blessings be upon our Prophet Muhammad, his family and Companions!
