فلسطين

The world ignorantly thinks that Palestine was empty and completely undeveloped until it was invaded by Israel in 1948! 🇵🇸

These historical images from 1930 to 1940 shows us that not only Palestine was beautiful, but it was highly developed for its time, rivaling even the most beautiful European cities of that era such as London, Paris, and Berlin! 🇪🇺 🚀

Share it so that the world, including Muslims, would know the truth about Palestine's beauty and development before occupation! 🖤🤍❤️💚
